PROFESSIONAL SUMMARY

QA Engineer with hands-on experience testing web and mobile applications across HRM, ERP, sales, finance, and e-commerce domains. Experienced in functional, regression, API, UI, UAT, cross-platform, and exploratory testing, with a strong focus on requirement analysis, defect investigation, and end-to-end business workflows. Currently developing practical test automation skills with Playwright and Cypress.

EDUCATION

Deerwalk Institute of Technology, Tribhuvan University

2020 - 2024

B.Sc. Computer Science & Information Technology - Kathmandu, Nepal

EXPERIENCE

QA Associate - Infocom Solutions Pvt. Ltd.

August 2025 - Present

- Analyze requirements and business workflows and design test coverage for functional, regression, integration, UI, and API testing across HRM, ERP, sales, and finance applications.
- Investigate and document defects with clear reproduction steps, expected vs. actual results, supporting evidence, and relevant technical information; collaborate with developers through resolution and retesting.
- Support test planning, requirement clarification, regression validation, and release validation across web and mobile applications.

QA Engineer Intern - Infocom Solutions Pvt. Ltd.

March 2025 - August 2025

- Executed functional, regression, and UI testing to identify and document software defects.
- Created and maintained test cases based on functional requirements and user stories.
- Collaborated with developers to reproduce defects, verify fixes, and improve product quality.

FEATURED PROJECTS & APPLICATIONS TESTED

- Bizlevate HRM - Multi-tenant HR management platform covering employee management, attendance, leave, payroll, onboarding/offboarding, appraisal, and organizational workflows.
- PrimeSales 360 - Field-sales application supporting sales representatives and distribution workflows.
- Salesmania - Supervisor approval app for ASM/DCM roles covering expense and travel workflows.
- TREMS - Financial dashboard application for reporting and operational views.
- CQNoval - Mobile/web ERP application for finance, HR, procurement, and inventory.
- ESpoT - Mobile/web application covered in QA testing engagements.
- E-commerce Platform - E-commerce web platform covering product catalog, storefront, and reseller-related flows.
